Additional Comments

19. Please use this text box to provide any comments regarding the data submitted in this report (optional, no limit).

Job placement data was gathered from the California Community College's Career Technical Education (CTE) (Perkins IV) dashboard. Data in each year is representative of rates for a cohort of students who had left the community college system in the year prior (e.g., because they earned an award or some other reason). For example, data for FY 19/20 represents employment rates for students who left the system in spring 2019 and found employment in 19/20. Additionally, course completion rates included "P" grades as successful since a P grade is earned upon receipt of a C grade or better.

By submitting this report on behalf of my institution, I confirm that the data and information contained herein is accurate and correct to the best of my knowledge. The institution acknowledges that knowingly submitting false or inaccurate data may result in notification to the U.S. Department of Education and/or accreditation action.
