Career Options/Outlook:
Emergency Medical Technicians and Paramedics assess injuries, administer emergency medical care, and extricate trapped individuals. Transport injured or sick persons to medical facilities.

A sample of reported job titles:
Emergency Medical Technician (EMT); Emergency Medical Technician, Basic (EMT, B); Emergency Medical Technician/Driver (EMT/DRIVER); EMT Intermediate (Emergency Medical Technician, Intermediate); EMT, Paramedic (Emergency Medical Technician, Paramedic); EMT/Dispatcher (Emergency Medical Technician/Dispatcher); First Responder; Flight Paramedic; Multi Care Technician (Multi Care Tech); Paramedic
Program Description
Cosumnes River College's Emergency Medical Technology course (EMT 100) is designed to provide the student with the skills and knowledge to apply for certification as an Emergency Medical Technician (EMT) in the State of California. EMT certification is the first step to starting a career working on an ambulance. EMT certification is also a pre-employment requirement for most professional fire departments. Students must fulfill all requirements of the EMT course including but not limited to: background clearance, physical examinations, immunization, Tb clearance and drug screening. Cosumnes River College's EMT 100 students will gain clinical experience in ambulance units and in hospital emergency departments.

The Emergency Medical Technician Program is designed to fulfill the entrance requirements, (along with 1 year of work experience), for many paramedic programs. Paramedic programs will have other prerequisites such as anatomy and physiology and medical terminology. Students should check individual paramedic programs and college counselors for each college's specific requirements.

EMT certification is an important first step in the career path of students pursuing professions as physicians, registered nurses, physician assistants, and other health professions, by offering a distinct advantage in patient assessment and critical interventional skills, as well as to obtaining valuable work experience in emergency medicine.

For more information please visit our program's website: [http://www.crcems.us](http://www.crcems.us)

Program Highlights
- Hands-on experience in administering proper emergency medical care
- Preparation for the EMT state certification test (NREMT)
- Recertification for EMT state certification
- First step in pursuing paramedic license
- Hospital emergency room and ambulance clinical time

Honors option:
The CRC Honors Program is designed specifically for academically accomplished students and for students with the potential for high achievement. Students who complete 15 units or more in honors-designated courses will earn special recognition as an Honors Scholar, a distinction that may entitle the student to guaranteed transfer and scholarship opportunities at select transfer colleges and universities.

Transfer notes:
Please meet with a counselor for specific transfer course evaluation or transferring to a specific 4-year institution.

General Education (GE):
Select a GE theme to complete the missing GE requirements.
